Claim Objections

Claim 9 is objected to because of the following informalities: Claim 9 depends on itself. Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-7,9-11 and 14 are rejected under 35 U.S.C. 102(b) as being anticipated by Gifford, et al.-5695504.

Gifford discloses a device as shown in fig. 40 having inner and outer rings with openings and retention spikes. The rings can rotate relative to each other. There are openings at both ends of each ring as well. At least the portion of the spikes closest to their attachment to the ring would be at a tangent to the ring. Claim 9 is rejected in the event that it was intended to be dependent on claim 1.

Allowable Subject Matter

Claims 15-17 are allowed.

Claims 8,12 and 13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
